BOXING.

Eddie Gardner will likely have to give away some weight to Kid Goulette next Thursday night. The lowest Goulette ever does is 126 pounds, while Eddle can do 122 easily. The match had to be made at catchweights, at Goulette's request, owing to the short notice given him, and it will not be a bad guess to say that he will enter the ring weighing close to 1.25 pounds, and Eddle tipping the scales at 128.

If the Metropolitan club can get a good match for John Fritz, the East End middlewight, it would make an interesting preliminary to Thursday night's contest. Fritz and Pine furnished a bushed of fun at the last

Asollos 10 28 38 70 Kenmores ... 7 41 144 805 Wheeling and All Allke continue tied for first place, both having an easy task last week in winning three straight from their respective opponents. In this week's contests All Allkes have a shade the best of it, their opponents being Apollos, with an average of 806, while Wheeling tackles the 889-average Reugh Riders. However, if Wheeling has its strongest team out they ought to rol up to their average of 982. Emblem continues leading in the race for individual honors with Rader only two points in the rear, and Handian's average of 200 last week has brought him up the line into third place, with a fighting chance for the lead. Campbell and Stevenson are tied in fourth position. The individual averages follow:

TERRIBLE EARTHQUKE

In Mexico-Traveled from West to East Across the Whole Country, Demolishing Houses, Rendering Churches Unsafe and Attended With Loss of Life. CITY OF MEXICO, Jan. 21.-News is

arriving from the interior points af-fected by the earthquake Friday night and Saturday morning. Much damage was done to property in Guadalajara, and the city of Colima, capitol of the state of the same name, was the scene of terrifying experiences, accompanied with loss of life. The City of Mexico came off comparatively unscathed, few accidents occuring here, although some adobe huts in the suburbs fell in, and one bridge was partly wrecked. The Church of the Three Kings, at Atzchatzalco, in the suburbs, was cracked and will be closed for repairs. Scientists are studying the earthquake from data now being received from interior points. COLIMA Mexico, Jan. 21,-An earthquake shock began here at 11.50 p. m. Friday and assumed serious proportions at Tenimata, many houses being hadly injured and some of light construction wrecked. There was great consternation, and people rushed into the streets, some barely escaping with their lives. Seven persons were killed outright and sixty were injured, and are being cared for by local surgeons. It was reported that the volcano had burst into cruption, but it now appears that the phenomenon was confined to subterranean manifestations. Local scientific men believe that the earthquake traveled from under the Pacific ocean and that when news reaches here from the coast there will be interesting details. The governor of this state has appointed a commission to inspect the churches and public edifices, while owners of houses injured in the earthquake will be compelled to put them in a con dition of security. Quiet is restored, and there is little apprehension of a return of the disturbances.

GUADALAJARA, Mexico, Jan. 21 .-At midnight Friday an earthquake shock cracked the arches and staircase of the state palace and the porticos of the universify and the Degallado Theatre, the latter one of the most massive structures here. The churches of San Francisco and San Jose were damaged The former is one of the handsomest edifices on the continent and is locally known as the Golden Cup from the magnificence of its interior. The gov ernment has closed Sagrario Church, fearing the dome will fall in. Carmen barracks were badly damaged, and news from Zapotlan and Sarula states that several houses were demolished. The shock was felt severely at San Blas, on the Pacific, and noises under ground were heard resembling the hoarse rumbling of a heavy sea dash-ing on shore. Meteorologist Conteras predicts a repetition of the shocks.

VERA CRUZ, Mexico., Jan. 21.-The earthquake traveled across the country eaching here just after midnight Saturday morning. The shock was com paratively light here.

Two more girls escaped from the Ne Jersey state industrial school for girls last night. This makes fifteen that have escaped within the past few months, eleven of the fifteen having been recap-tured.

Mr. Lutz then took a hand in the game, and fired that former manager "Patsy" Donovan at the men, who made a hasty exit from will not be given his release, but will be the saloon. It definite confirmation is had some of the thieves will yet be landed, and it is devoutly hoped by everybody that some of them can be. It has puzzled everybody to understand the success of the local thieves. The officers seem anxious enough, but there is said to exist a lack of harmony in operating. It this is true it should be dropped.

The effort to begin the local political

The effort to begin the local political campaign is not meeting with much success. People generally are too busy to bother for two months with matters that will be determined by primaries in March, and the election in April. But as there is a full city ticket to elect this spring it is probable the primaries will be largely attended, as the citzens are directly interested in every officer to be named, from mayor to assessor. A new primary election law is likely to be enacted by the present legislature.
